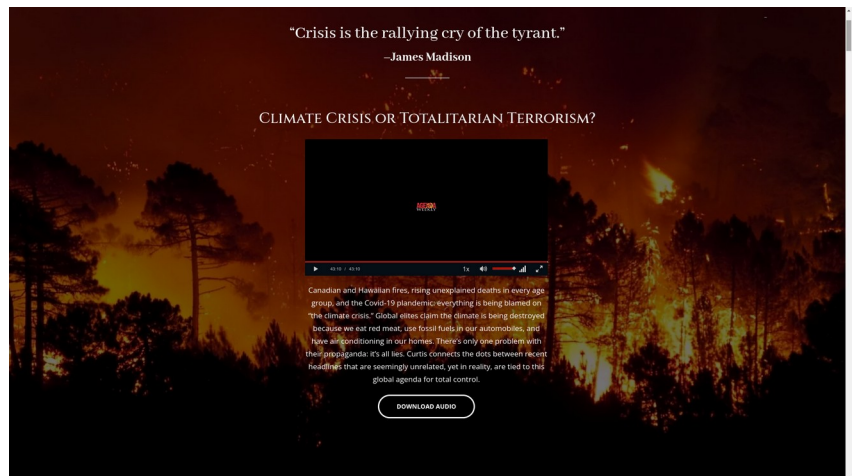

**Figure 1:** The “Walking Dead” are the mass-murdering and morally vacuous CCP – Chinese Communist Party. To which, balanced journalism is their anathema. Rather, their benediction is “news” subservient to the line of the party with a seven decades long history drenched in genocide, terror and oppression.

**Figure 2:** Have you read Aleksandr Solzhenitsyn’s *Gulag Archipelago*? If not, you should, as propagandists, which indeed you yourselves and our media have become, were likewise, imperative to the tyranny of the Soviet Empire.

**Figure 3:** Photo taken by myself in Poland’s Auschwitz Concentration Camp Museum in late June 2005. It appears on the back cover of my book. George Santayana (1863-1952) was a Spanish-American philosopher, essayist, poet and novelist.

**Figure 4:** Canadian and Hawaiian fires, rising unexplained deaths in every age group, and the COVID-19 pLandemic: everything is being blamed on “the climate crisis.” Global elites claim the climate is being destroyed because we eat red meat, use fossil fuels in our automobiles, and have air conditioning in our homes. There’s only one problem with their propaganda: it’s all lies. Curtis Bowers on his *AGENDA WEEKLY* connects the dots between recent headlines that are seemingly unrelated, yet in reality, are tied to this global agenda for total control.
