Subject: The bravery of your government and nation's police in combating far-right extremism and disinformation and my insights for you on instruments of disinformation globally.

Friday August 23rd, 2024

Dear Prime Minister

How are you? My name is [Vince Barwinski](#) and I'm a part-time [author/researcher](#), based in Brisbane Australia.

As one who has deeply researched disinformation that plagues our modern Western society today, in concert with poignant historical parallels, [as discussed for example in Chapter 29 of my book](#), I have nothing but the deepest admiration for you, your government and the valour of your brave cyber-warrior police nationally, as they root out far-right extremists on social media – not just within your nation, but in the [true globalist-cabal spirit of Davos](#), from without as well.

After reading the first three surahs of the Quran, it has been made abundantly clear to me, what a religion of peace Islam is. To which, the sight of your police on the ground [befriending Muslims, fills me with such inexorable and overflowing joy](#), as it epitomises their religion of peace, the very antithesis to the ideology of the far-right extremist thugs – the latter of whom being a dire and existential threat to the democracy of the [New World Order you so proudly represented at Davos in January 2023](#). [Why wasn't Rishi there instead???

In [Chapter 29 of my book](#), from pages 6 to 7, I discuss how in 2020-21, the American Democracy was under threat, but ultimately saved with the crushing on January 6th, 2021 of the insurrection by likewise far-right MAGA extremists, loyal to the Constitutional Republic of the American Founding Fathers, facilitated in no small part, by the vigilant interrogation and sanitisation of social media by all levels of police, government and media, as you yourself, have likewise invoked with I must say, even greater but still commensurate and most exemplary fervour. Moreover, my mention of [the late February 1933 Berlin Reichstag Fire from page 5](#), and [my visit to the Auschwitz Concentration Camp Museum in late June 2005 from the top of page 16](#), I am certain, you will find more than eminently poignant.

In August last year, our Federal Australian Government proposed feedback on their [Communications Legislation Amendment \(Combating Misinformation and Disinformation\) Bill 2023](#). As the scourge of disinformation is so close to my heart, I ended up submitting a [54 page essay with 312 source endnotes](#) dealing in depth with disinformation; the inexorably pernicious and existential threat to the Democracy of your envisioned New World Utopian Order of man. As is, the continued existence of the Jewish state Israel, as I elucidated in a 51 page paper with 380 source endnotes that I completed in March this year, which was subsequently featured in a discussion piece on the [The Exposé](#).

In closing, I would love to hear your thoughts and leave you with all the Blessings of the best deceiver as described in the Third Surah, verse 54 of the Quran.

Yours faithfully

Vince Barwinski
