Subject: Mr. $\text{ZnFe}_4(\text{PO}_4)_3(\text{OH})_5$, I have evidence of the depopulation agenda embodied in the Catastrophic Climate Change Scam. I would love to hear you thoughts.

Dear Professor $\text{ZnFe}_4(\text{PO}_4)_3(\text{OH})_5$

[3 minute read]

After reading your [profile on LinkedIn](#), I opted to use your proper Plimerite Mineral/Molecular Chemical Formula identifier.

Anyway Professor Plimer, mocking jokes at the expense of the insane WOKE left aside, my name is [Vince Barwinski](#) and I have had the pleasure to meet and talk briefly with you on two occasions. Firstly on September 12th 2023 at the Tingalpa Hotel in Brisbane, where [I listened to your excellent presentation with Voting Matters on the Catastrophic Climate Change Scam \(CCCS\)](#), and purchased a copy of your book *Green Murder* which you personally signed for me. I also listened to the likewise revealing presentation of [Jim Willmott from Property Rights Australia](#) exposing how this [horrendous scam](#) impacts our farmers in Queensland.

I then met you again at the Tingalpa last October 16th 2024 and had the pleasure to inform you that I had completed your compelling read of *Green Murder*, before buying more of your books following your and [Jim's presentation](#). I did comment to you briefly on your intriguing mention of Vladimir Putin in *Green Murder* and then Israel, to which you poignantly concluded the conversation by saying;

“If Israel falls, so do we.”

To which I thought;

“Amen to that Professor Plimer.”

Anyway, I better cut now to the chase.

Last week, I received some deeply disturbing information, that I must confess, I have long suspected, in relation to the [Catastrophic Climate Change Scam](#). It was revealed to me via an American podcast, which then prompted me to research it further in depth.

Upon doing this research, I was prompted to write to my local Federal member for Rankin; Treasurer Jim Chalmers, and the [South Australian Greens Senator and 2016 Young Global Leader of the World Economic Forum; Sarah Hanson-Young](#). In my letters to them, which are both about a 15 minute read, I posed the following two key questions:

“Given your commitment to the perceived crisis of Catastrophic Climate Change, does such a commitment ultimately embody an agenda of population control? If so, whom of humanity will be considered expendable?”

The PDF copies of these two similar letters I have uploaded to my website at:

I have also posted this on X at:

On pages 3 to 4 of both PDFs, I get to the nitty gritty with a screenshot of a video of a 1968 founding member of the Club of Rome, [namely Dennis Meadows, in a 2017 interview in Holland, with a Dutch Climate Alarmist YouTube Channel "WeLoveEarth"](#), calling for a culling of the world population down to ONE or TWO Billion – but of course, in a:

“Civil or peaceful manner!”

... before I conclude my letters with a poignant mention of [Heinrich Himmler from my book](#).

To which Professor Plimer, I would be fascinated to hear your thoughts!

For now ...

All the best
